

# COVID MOVE-IN PROCEDURES

1. Proof of valid COVID-19 vaccination card.
2. New residents coming in from no-known COVID-19 exposure. Need a negative test before moving in (as close to the move-in date as possible - max 48 hours).
  - a. Move-in under quarantine
  - b. Test 72 hours post move-in
  - c. Then once we receive a negative test, we can lift the quarantine
3. New residents coming from known COVID-19 exposure (i.e., hospitals/skilled nursing facilities/other senior living communities)
  - a. Need a negative test before moving in (as close to the move-in date as possible - max 48 hours)
  - b. Move-in under quarantine (with expectation that it can be up to 14 days)
  - c. Then, test again at day 10
  - d. Quarantine is lifted once they have negative test results and also asymptomatic after 2nd test
  - e. Full personal protective gear for all caregiver/close contact interactions
4. New residents recovering from COVID-19
  - a. Before moving in, doctor to confirm in writing the resident is cleared from COVID quarantine
  - b. This includes at least 10 days since symptom onset with symptoms resolved for at least 24 hours

Please contact Yannick Tanga or Leonelle Wamba the care Liaison for any clarification or questions. Thank you and we look forward to welcoming you into the Mercury Family!
